

provides **solutions for middle market companies** that remove barriers to Digital Transformation

The Challenge

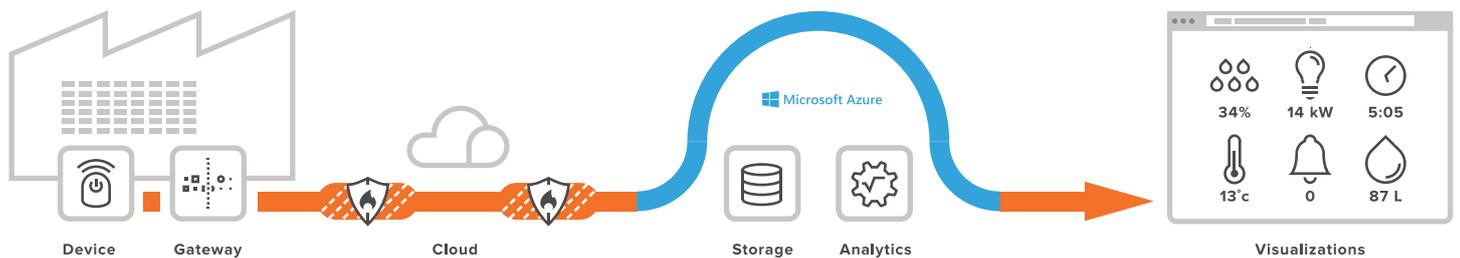

Faced with security concerns, difficult investment decisions, rapidly changing technology and limited in-house expertise, middle market companies have been limited in their digital transformation and their use of data solutions to remain competitive.

The Solution

vyzVoice was founded with the mission of creating a relationship between stakeholders and their data. Our purpose is to deliver solutions that simplify the process for companies to gain data-driven insights for all users, at all levels of their business, to produce results.

How do we do it?

Introducing Chorus – a secure, application platform, based on Microsoft Azure. Chorus provides the foundation for all our industry solutions.

Device Agnostic

Chorus acquires real-time data from all sources, regardless of their technology or software protocols

Powerful Analytics

Chorus allows you to create custom analytics, use predictive analysis, build reports and define notifications based on real-time data

Graphical Visualization

Chorus delivers a clear dashboard visualization of real-time data, customized to the KPIs of each end user

End-to-End Security

With end-to-end embedded security, Chorus is compliant with Deutsche Telekom AG security standards

Industry Solutions

vyzVoice provides **4** industry-focused, off-the-shelf, end-to-end **solutions**.

datacentervoice

A comprehensive solution for all levels of datacenter management.

wellbeingvoice

Optimizing environmental conditions and enhancing facilities management in buildings

industryvoice

Bringing data-driven process improvement for industrial automation throughout the manufacturing value chain.

sustainabilityvoice

A complete solution for reaching CSR goals and ensuring compliance with international standards.

Why is vyzVoice different?

- ▶ Off the shelf, customizable : vyzVoice solutions are fully customizable based on business needs, user roles and KPI
- ▶ Vertically integrated : Defined user roles and access allow for secure integration at all levels
- ▶ Rapid deployment, easy to use : Starting with Proof of Concept, our solutions can be fully deployed in a matter of weeks
- ▶ Scalable: The Chorus platform is fully scalable to the evolving needs of the business
- ▶ Cost Effective: With no major investment and scalability, capex is converted to opex based on actual needs and use
